

Co-funded by  
the European Union

STEP-IN is a project co-funded by the European Union focused on building the capacity of non-MHPSS (mental health and psychosocial support) professionals, who are in contact with vulnerable migrant populations in Italy, Greece, and Romania.

## How to achieve these goals?

- By equipping non-MHPSS professionals with a versatile and cost-effective methodology.
- Promoting the Problem Management Plus (PM+) methodology as an evidence-based low-intensity MHPSS intervention to improve migrants' access to Mental Health care.
- Raising awareness among crucial stakeholders about the impact of the COVID-19 pandemic on migrants, emphasizing the need for timely intervention.

## Join the Step-In Community of Practice
